LAB TASK 07

Name: Hafiz Abdullah Shakeel

Sap I'D: 72405

Subject: Object Orientated
Programming

Teacher: Sir Imran Khan

Task 1:

```
package com.mycompany.lab7;
public class Lab7 {

    public static void main(String[] args) {
        System.out.println("Name: Hafiz Abdullah Shakeel");
        System.out.println("Sap: 72405");

        Teacher t = new Teacher(1, "Sir Mansoor");
        Librarian l = new Librarian(2, "Mr. Rafay");
        Accountant a = new Accountant(3, "Mr. Abdullah");

        t.service();
        l.service();
        a.service();
    }
}
```

```
class Staff {
    int id;
    String name;

    Staff(int id, String name) {
        this.id = id;
        this.name = name;
    }

    void service() {
        System.out.println("General staff service.");
    }
}
```

```
class Teacher extends Staff {
    Teacher(int id, String name) {
        super(id, name);
    }

    void service() {
        System.out.println("You are a teacher. Teaching students...");
    }
}
```

```
class Librarian extends Staff {
    Librarian(int id, String name) {
        super(id, name);
    }

    void service() {
        System.out.println("You are a librarian. Managing books...");
    }
}
```

```
class Accountant extends Staff {
    Accountant(int id, String name) {
        super(id, name);
    }

    void service() {
        System.out.println("You are an accountant. Handling finances...");
    }
}
```
